

Introduction to Computer Networking for Non-Techies

Instructor: Alton Hardin

Course Curriculum

Section 1: Course Introduction

1. Course Introduction and Overview
2. What This Course Is & What It Isn't
3. Instructor Introduction
4. Udemy Mobile App for iOS & Android - Download & Take Course Videos On the Go!
5. Student Exercise: Introduce Yourself

Section 2: Overview and Benefits of Computer Networks

6. What Is a Computer Network?
7. Some Basic Computer Networking Rules
8. Types of Networks
9. Why Build a Computer Network?
10. Student Exercise: Benefits of Computer Networks
11. Follow-Along Network Design - Part 1

Section 3: How Computer Networks Work

12. Section Introduction
13. Introduction to Computer Networking Protocols
14. Introduction to the OSI Model
15. Introduction to the TCP/IP Model
16. Introduction to MAC Addresses
17. Introduction to IPv4 Addresses
18. IP versus MAC Addresses
19. Duplex Communication
20. Introduction to Ethernet
21. Follow-Along Network Design - Part 2
- ✓ **How Computers Work Quiz**

Section 4: Network Topologies

22. Introduction to Physical Network Topologies
23. Common Physical Network Topologies
24. Follow-Along Network Design - Part 3
- ✓ **Network Topologies Quiz**

Section 5: Networking Devices

- 25. Section Introduction
- 26. Network Interface Cards (NICs)
- 27. Hubs
- 28. Switches
- 29. Hubs versus Switches
- 30. Wireless Access Points
- 31. Routers
- 32. Firewalls
- 33. DHCP Servers
- 34. All-in-One SOHO Devices
- 35. Modems (Added 2019)
- 36. Follow-Along Network Design - Part 4
- ✓ **Network Devices Quiz**

Section 6: Network Cabling

- 37. Section Introduction
- 38. Types of Network Cabling
- 39. Ethernet
- 40. Twisted Pair Copper Network Cabling
- 41. Wiring Standards: 568A & 568B and Cable Types
- 42. Plenum-Rated Cabling
- 43. Fiber Optic Network Cabling
- 44. Networking Cable Selection Criteria
- 45. Follow-Along Network Design - Part 5
- ✓ **Network Cabling Quiz**
- 46. Course Review Request

Section 7: The OSI Model

- 47. Section Introduction
- 48. OSI Layer 7 - The Application Layer
- 49. OSI Layer 6 - The Presentation Layer
- 50. OSI Layer 5 - The Session Layer
- 51. OSI Layer 4 - The Transport Layer
- 52. OSI Layer 3 - The Network Layer
- 53. OSI Layer 2 - The Data Link Layer
- 54. OSI Layer 1 - The Physical Layer
- 55. OSI Model Data Encapsulation and Decapsulation
- ✓ **OSI Model Quiz**

Section 8: Planning a Network

- 56. Section Intro
- 57. Why We Plan
- 58. The Overall Process
- 59. Understanding the Business
- 60. Establishing a Business Need
- 61. Defining Specific Areas of Improvement
- 62. Buy-in and Resources
- 63. Hidden Costs
- 64. Other Considerations
- 65. Planning Questions
- 66. The Next Steps
- 67. Student Exercise

Section 9: Introduction to TCP/IP

- 68. Section Intro
- 69. What is TCP/IP?
- 70. TCP/IP Protocols
- 71. Types of Communication
- 72. Access Methods: CSMA/CD, CSMA/CA, Token Passing
- ✓ **Section Quiz**

Section 10: TCP/IP Network Layer Protocols

- 73. Address Resolution Protocol (ARP)
- 74. Internet Protocol Version 4 (IPv4)
- 75. Internet Protocol Version 6 (IPv6)
- 76. Internet Control Message Protocol (ICMP)
- ✓ **TCP/IP Network Layer Protocols Quiz**

Section 11: TCP/IP Transport Layer Protocols

- 77. Transmission Control Protocol (TCP)
- 78. User Datagram Protocol (UDP)
- 79. Understanding Ports
- ✓ **TCP/IP Transport Layer Protocols Quiz**

Section 12: Common TCP/IP Application Layer Protocols

- 80. Management Protocols
- 81. Remote Communication Protocols
- 82. File Transfer Application Protocols
- 83. Mail Application Protocols
- 84. Browser Application Protocols
- 85. Follow-Along Network Design - Part 6 (Added 2019)
- ✓ **TCP/IP Application Layer Protocols Quiz**

Section 13: Understanding IPv4 Addresses & Binary Math

- 86. Section Introduction
- 87. Understanding IPv4 Addresses & Binary Math
- 88. Binary Math Basics
- 89. Revisiting DHCP
- 90. Binary Math Student Exercise Worksheet

Section 14: A Deeper Dive into IPv4 Addresses and Subnet Masks

- 91. IP Address Classification and Subnet Masks
- 92. The Power of 2's
- 93. Public versus Private IP Addresses
- 94. Public versus Private IP Addresses Visualized
- 95. The Loopback IP Address
- 96. APIPA
- ✓ **IPv4 Addresses and Subnet Masks Quiz**

Section 15: Introduction IPv4 to Subnetting

- 97. Introduction to Subnetting
- 98. Subnetting Reference Tables
- 99. Subnetting a Class C Network #1
- 100. Visualizing Subnetting a Class C Network #1
- 101. Subnetting a Class C Network #2
- 102. Visualizing Subnetting a Class C Network #2
- 103. Follow-Along Network Design - Part 7
- ✓ **Subnetting Quiz**

Section 16: IP Addressing Version 6 (IPv6) Fundamentals

- 104. Section Introduction
- 105. Disadvantages of IPv4 and IPv6 Solutions
- 106. IPv6 Addressing
- 107. Types of Ipv6 Addresses
- 108. IPv4 to IPv6 Translation & Compatibility
- ✓ **IPv6 Fundamentals Section Quiz**

Section 17: Understanding Switches

- 109. Section Introduction
- 110. Refresher on Hubs vs. Switches
- 111. Collision Domains & CSMA/CD
- 112. Switch Form Factor
- 113. Managed versus Unmanaged Switches
- 114. How a Switch Learns MAC Addresses
- 115. VLANs
- 116. Layer 3 Switches
- 117. Follow-Along Network Design - Part 8
 - ✓ **Understanding Switches Section Quiz**

Section 18: Understanding Routers

- 118. Section Introduction
- 119. Refresher on Routers
- 120. Routing Tables
- 121. EGPs & IGPs
- 122. Static versus Dynamic Routing
- 123. The Next Hop
- 124. Interior Gateway Protocols (IGPs): RIP, RIPv2 & OSPF
- 125. Exterior Gateway Protocols (EGPs) - BGP
- 126. Default Routes
- 127. Directly Connected Routes
- 128. Network Address Translation (NAT)
- 129. Cisco Packet Tracer Demonstration
- 130. Follow-Along Network Design - Part 9
 - ✓ **Understanding Routers Section Quiz**

Section 19: Wireless Networking

- 131. Section Introduction
- 132. Wireless Networking Fundamentals
- 133. Wireless Networking 802.11 Standards
- 134. Signal Degradation
- 135. Wireless Network Vulnerabilities & Security
- 136. Wireless Networking Security Standards
- 137. WEP
- 138. WPA
- 139. WPA2
- 140. WPA3
- 141. WPA Enterprise vs. Personal Mode
- 142. Follow-Along Network Design - Part 10 (Added 2019)
 - ✓ **Wireless Networking Section Quiz**

Section 20: Wide Area Networking

- 143. Section Introduction
- 144. WAN Technologies Overview
- 145. Circuit Switching vs. Packet Switching
- 146. POTS/PSTN Dial-Up
- 147. ISDN
- 148. T-Carrier & E-Carrier Digital Signal Lines
- 149. DSL
- 150. Broadband Cable
- 151. X.25, Frame Relay and ATM
- 152. FDDI and SONET

✓ **Wide Area Networking Section Quiz**

Section 21: Network Security

- 153. Section Introduction
- 154. Intranet, Extranet and the Internet
- 155. Perimeter Networks: DMZ
- 156. Firewalls
- 157. Proxy Servers
- 158. Network Intrusion & Prevention
- 159. Follow-Along Network Design - Part 11

✓ **Network Security Section Quiz**

Section 22: TCP/IP Command Line Tools

- 160. Section Introduction
- 161. Accessing & Using Command Prompt
- 162. IPConfig
- 163. Ping
- 164. Tracert
- 165. PathPing
- 166. NetStat

✓ **TCP/IP Command Line Tools Section Quiz**

Section 23: Designing a Network

- 167. Designing a Network
- 168. Step 1: Identify the Uses of the Network
- 169. Step 2: List Which Tasks Execute on Which Computers
- 170. Step 3: Select the Type of Network: Centralized or Not?
- 171. Step 4: Select the Proper Equipment
- 172. Step 5: Draw the Network
- 173. Step 6 & 7: Write the Specifications & Build It!

Section 24: Follow-Along Case Study Network Design Scenarios

- 174. Section Introduction
- 175. Case Study Analysis Instructions
- 176. Case Study #1: H&M Law Firm Walk-Through
- 177. Case Study #1: H&M Law Firm Network Design Proposal Analysis
- 178. Case Study #2: San Bernardo Dentistry Walk-Through
- 179. Case Study #2: San Bernardo Dentistry Analysis

Section 25: Conclusion

- 180. Congratulations!
- 181. Bonus Lecture: Get My Other IT Course for Up to 90% OFF
